182 Natural Maple
Queen Garden Bed

BEN NAPIER

We love working with Artisan & Post because we believe in creating and keeping jobs in small town America.
We wanted to work with them from the very beginning because they create incredible furniture that's designed to last.

With three great beds, four finishes and five fabric choices, we've given the consumer the power to customize her bedroom and get exactly what she wants.

180 Maple Syrup
Queen Poster Bed

With its graceful curves and softly rounded posts, the Poster Bed feels both timeless and inviting. The Maple Syrup finish highlights the beauty of solid maple, glowing with a warmth that brightens the room and enhances its classic silhouette. Paired with clean-lined case pieces, this bed strikes the perfect balance between tradition and simplicity — a design that feels at home in a city loft as much as in a country retreat.

This timeless bed in a fresh Cottage White finish pairs classic charm with everyday function. Graceful posts and a soft white tone bring a relaxed cottage feel, while the storage footboard's built-in drawers provide discreet storage, keeping essentials neatly tucked away. A perfect blend of casual elegance and everyday practicality.

184 Cottage White
Queen Poster Storage Bed

Soft lines meet solid craftsmanship in this upholstered bed, where comfort and design come together seamlessly. Wrapped in a rich, textured performance fabric, it creates a restful retreat that feels both tailored and inviting. Perfect for modern bedrooms that seek a balance of style and serenity, this bed offers a quiet sophistication — a place designed for unwinding in effortless comfort.

LM Co. HOME

Experience the elegance of craftsmanship where every detail delights - from black nickel accents and graceful wooden pulls to acrylic-finished drawer interiors that gleam with refinement. Whisper-close drawers glide effortlessly on precision ball-bearing guides, making beauty and function seamless.

Painted finishes feature subtle rub-through along the bed posts and case edges with occasional wormholes in the wood, which are naturally found in SOLID AMERICAN MAPLE.
