YELLOWSTONE

Bedroom Collection

Inspired by the rugged, untamed and majestic countryside of the great American West. The collection features Solid White American Oak solids and white oak veneers. By using ATAP™ (Accelerate The Aging Process) technology, we have kept the splits, cracks, knots and the bold grain pattern found in oak lumber to create a reclaimed wood look in this beautiful and unique bedroom collection.

Note the dovetail prominently displayed on the tops of each post in the American Dovetail headboard and American Dovetail footboard. We use the dovetail joinery in the American Dovetail Mirror that perfectly complements the bed.

Until now, only Mother Nature could make wood look this good.

The American Dovetail Bed utilizes the dovetail, an ingenious wood joinery technique that is literally hundreds of years old. The dovetail is prominently displayed on the tops of each post in the American Dovetail headboard and footboard. Note how we use the dovetail joinery in the Mirror that perfectly complements the bed.

The Yellowstone Bed features a bold mitered joint that attaches the bed post to the cap rail of each bed. We again use the mitered corner as the dominant design feature in the Yellowstone Mirror. Consumers desiring a more casual and less rustic feel will gravitate to this bed and mirror.

YELLOWSTONE

Bedroom Collection

Our Yellowstone Bedroom Collection is named to evoke the great outdoors, inspired by the Yellowstone River which inspired the name for the National Park.

The Yellowstone River is the longest free-flowing river in the lower 48 states. The name was attributed, as early as 1805, to Native Americans who were referring to the yellow sandstones along the banks of the river in eastern Montana, several hundred miles downstream and northeast of the park.

A TREE FOR A TREE

Rooted in the small-town community of Galax, Virginia, Vaughan-Bassett is the largest manufacturer of wooden residential furniture in the United States. It is no secret that our local craftsmen and the surrounding Appalachian forests create a rich environment for company growth and success.

For every Appalachian tree that is cut down to build our furniture, another tree is planted in its place. We are making a sustainable future for America’s small towns, forests and companies.
